

TOWN OF
FARMINGTON

Memorandum

TO: Farmington Town Board

FROM: Ron Brand, Director of Planning & Development - **Ronald L. Brand**
Dan Delpriore, Town Code Enforcement Officer - **Daniel Delpriore**
August Gordner, Deputy Town Code Enforcement Officer - **August Gordner**

DATE: October 14, 2025

RE: Town Operations Report to Town Board, Tuesday, October 13, 2025.

The following report is for this week's Town Board Meeting, and it is for the period September 23, 2025, through October 13, 2025.

Town Board Resolutions (2)

1. 1. Resolution authorizing the final release (Release No. 1) in the total amount of \$527,407.00 from the Letter of Credit established by National Fuel Gas Company for Empire Pipeline – Farmington Compressor Station Project.
2. Resolution accepting the recommendations from the Town Highway Superintendent, the Town Water & Sewer Superintendent, the Town Director of Planning & Development, the Town Construction Inspector, the Town Code Enforcement Officer and the Town Engineer and approving the filing in the Town Clerk's Office of a two-year maintenance bond in the total amount of \$38,314.35, for dedicated site improvements for Creekwood Townhouse Extension Project - Phase 2.

Town Projects Update

1. **Wood Drive Bridge Replacement Project and travel restrictions:** Fisher Associates, P.C., has submitted the design drawings for the replacement of the Wood Drive Bridge, for State, County and local transportation officials review and approval, and then will be advertising for bids in February 2026, bid opening in March 2025 and award the contract for the bridge construction in the Spring 2026. Construction is tentatively scheduled to be completed in the Fall, 2026.

Meanwhile construction of the extension of Pintail Crossing to the intersection with Running Brook Drive and Red Fern Drive has been completed and dedication documents are under review. Tentative dedication of this extension to the Town is scheduled for next month and once dedicated Pintail Crossing will become the new name of the town highway between County Road 41 and the intersection with Running Brook Drive and Red Fern Drive. Once this entire highway is dedicated, then Quentonshire Drive will no longer exist, and the street identification sign will be removed. Also, once Pintail Crossing is opened to public traffic, then the Wood Drive Bridge will be closed to all traffic movements.

Finally, traffic movements across the Wood Drive Bridge continue to be restricted to One-Way-In-Only, with the entrance from County Road 41, along with the posting of a ten-ton weight restriction. Traffic continues not to be allowed to exit from Wood Drive onto County Road 41. Law enforcement agencies continue patrolling the area and tickets continue to be issued to those motorists violating this reduced movement across the bridge.

- 2. TAP Sidewalk/Trail Connection Project:** The Town has requested easements, from Marrano Homes, on small strips of land located across the rear portions of three lots along the stone dust trail connection between the Auburn Trail and the newly installed sidewalk along County Route 41. Afterwards, the contractor will then be returning to complete the installation of sidewalk along a section of the west side of Mertensia Road near Elizabeth Way. This section was delayed this past year to allow for the installation of a new water line in the area.
- 3. Brickyard Road Water Storage Tank Project.**

Exterior painting of the structure and placing the identification logos on the structure has now been completed. The next step involves the filling of the tank with water and then rinsing, refilling and chlorination allowing the tank to come on-line with providing water service to the Canandaigua/Farmington Consolidated Water District. The anticipated completion date for this facility is scheduled for late 2025.
- 4. Monarch Manor Incentive Zoning Project, Section 2.**

There are a total of twelve (12) buildings each having two-dwelling units that are either fully or partially occupied within Section 2. Another eight (8) buildings along Monarch Drive are now under construction. There remain five (5) more building sites (a total of 10 dwelling units). Eventually within Section 2 there will be twenty-four (24) buildings having a total of forty-eight (48) single-family dwelling units. The Town awaits a presentation from A&D Real Estate Development Corporation, LLC, on the remaining phases [Sections 3, 4 & 5] of this incentive zoning project.
- 5. Hathaway's Corners Incentive Zoning Project.**

Within Phase 1B of the project and along the south side of County Road 41, there are two (2) occupied sites, one (1) site under construction and two (2) remaining lots for sale. Within Phase 1B, is a model home/sales office located along the east side of Osburn Lane. Along Eddy Gate Way there are seven (7) occupied dwellings, one (1) dwelling unit ready for occupancy and thirteen (13) dwellings under construction. Elsewhere along Osburn Lane there are eight (8) dwelling units under construction and twelve (12) occupied units. There are a total of forty-two (42) single-family lots located in this Phase of the Project.

A new phase of the Hathaway's Corners Project, Phase 2A, will have a total of thirty (30) single-family dwellings constructed along the remaining portion of Osburn Lane and a total of twelve (12) single-family dwellings constructed along Cooper Place. There are four (4) dwellings under construction in this section along Osburn Lane and additional dwelling lots have been sold within this phase. Two (2) dwelling units are under construction on Cooper Place. This final residential phase [2A] of this incentive zoning project will have a total of forty-two (42) single-family dwellings.

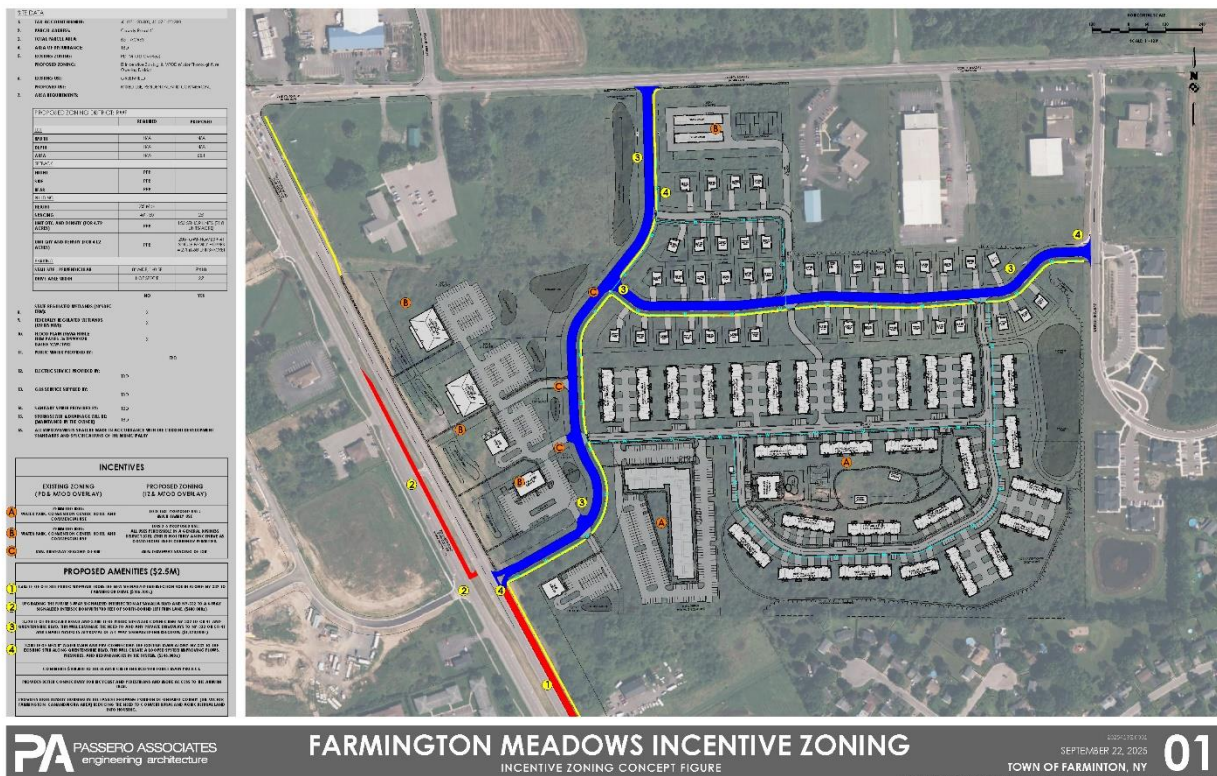

Site work also continues within the first portion of Phase 1C, The Villas at Hathaway's Corners. This phase will involve a total of sixty-one (61) single-family dwellings located on Villa-style lots fronting along Caleb Court [a private roadway]. Ten (10) single-family dwellings have been constructed and three (3) more are under construction. In addition, there are two (2) model sales office/homes open to the public and forty-four (44) lots remain available. This portion of the project will operate under a home-owners association where all site amenities (e.g., lawn mowing, landscaping, snow plowing, etc.) are provided for those living within the Villas at Hathaway's Corners.

6. **RG&E Substation 127 Expansion Project.** This electric substation expansion project is located along the east side of [961] Hook Road and south of Inter-State Route I-90 [New York State Thruway]. This project includes the addition of impervious area (adding a 186 ft. by 100 ft. expansion to the existing 127 substation yard) and expansion of an existing bioretention facility to provide water quality treatment for this new area. The last disturbances onsite occurred and were restored on June 25th. Two temporary poles remain onsite pending pickup for reuse or disposal. The site continues under monthly SWPPP inspections.
7. **RG&E Substation 168 Expansion Project.** Substation 168 is located along the south side of State Street, adjacent to the Village of Manchester. Interior work in the control house continues. Exterior site work, inside the 115kV yard on the east side of the station continues, including installation of steel structures, cable trenches, etc., and monthly SWPPP inspections are on-going and have been provided to the Town.
8. **CountryMax Building Project.** The interior work continues on this 68,000 square foot office/warehouse building. A portion of the building is now occupied with the remainder of interior construction and exterior site improvements continuing to be worked on. Exterior work includes the main public entrance to the building and installing site lighting.
9. **Farmbrook Site Plan Applications, Sections 7A & 7B.** This project will ultimately involve the development of seventy (70) single-family dwelling lots to be constructed within Sections 7A and 7B of the Farmbrook Planned Subdivision Project. Ryan Homes has completed two model homes, one (1) has now been sold and one (1) which continues to serve as the sales offices for the lots located in these two remaining sections of the Farmbrook Neighborhood. There are six (6) occupied sites, eight (8) sites with dwellings under construction and three (3) lots that have been sold during the past two-week period. This leaves a total of 51 lots to be sold and dwellings constructed.
10. **Paddock Landing Project (formerly known as the Power Incentive Zoning Project).** This project has been placed on hold at the request of the applicant until further notice.

- 11. Open Space Index Update.** The Town of Farmington Environmental Conservation Board (ECB) continues their final edit of a draft update to the Town's Open Space Index (OSI). The OSI Update document is required by the State's General Municipal Law and the Town of Farmington Town Code, for maintaining the Board's status. GIS mapping updates have also been prepared as part of this process.
- 12. Creekwood Townhouse Project – Phase Two.** This project involves the construction of 40 townhouse dwelling units and the extension of Pintail Drive connecting with the intersection of Running Brook Drive and Red Fern Drive. Paving of this street extension and the installation of utilities and sidewalks are now complete and the Town Board, at tonight's meeting, is anticipated to accept a two-year maintenance bond on these site improvements. Once this remaining section of future town road has been dedicated then Quentonshire Drive will be renamed Pintail Crossing. Once dedicated this new street will become the detour route to County Road 41 for those living in the area.
- 13. Commercial Drive Solar Projects, East & West.** The Town Planning Board, at their meeting on Wednesday, October 15th, will be considering approval of a 90-day extension of the time period established for preliminary site plan approval. In addition, the Lot Line Adjustment Plat map, transferring portions of the Solar Project East and the adjacent New Energy Works properties, continues to be worked on by the applicants' engineers. This lot line adjustment will enable the realignment of the future extension of Commercial Drive away from the rear property lines of adjacent townhouses. The map has to be signed by the Planning Board Chairperson and then filed in the office of the Ontario County Clerk.
- Once the preliminary site plan drawings have been signed, then the applicant may apply to the Planning Board for final site plan approvals for both the east and the west solar facilities. A standard condition of such approval requires Town Board approval for ongoing property maintenance, site reclamation and the posting of sureties. Then the final step involves a pre-construction meeting with the applicant followed by an order to proceed with the development of these two sites.
- 14. Villager Construction Project.** Site work including the construction of a private road, the construction of water lines and sewer lines, along with the pads for the two proposed buildings and on-site parking is underway. Last week, structural steel was delivered to the proposed buildings installation. The Project includes site improvements related to the development of a portion of the 33-acre site, formerly known as the Loomis Road Industrial Park Site. It involves the construction of approximately a 38,600 square foot, single-story, office building and a 9,000 square foot single-story maintenance building, on-site parking for employees, customers and guests, site lighting, landscaping and other related site improvements.
- 15. Victor-Farmington Volunteer Ambulance Corps.** The Ambulance Corps continues working with the New York State Department of Environmental Conservation for a permit to enable site work to commence on their proposed Ambulance Station No. 2 facility located at the southwest corner of State Route 96 and County Road 8. The Ambulance Corps will be constructing a three (3) bay addition to the existing building for their ambulances, making interior renovations to the existing building and related site improvements. They are hoping to be operating from this new facility in early 2026.

16. Town Code Updates. The Town Board next month will be receiving amendments to Chapters 144 and 165 of the Farmington Town Code, entitled Land Subdivisions and Zoning Law. The Town Board will be scheduling a public hearing on this proposed local law sometime later this fall.

17. Cook Properties Incentive Zoning Plan. The Town Board, at their meeting on September 9th directed town staff, upon receipt of requested information from the applicant, to prepare a draft local law for the incentive zoning project named **“Farmington Meadows Project.”** There has been a fourth overall concept site plan prepared for the development of approximately 65 acres of land located along the east side of State Route 332, between the Troop E State Police Headquarters and County Road 41. Below is the proposed concept plan for the development of this site. A larger scale color print of this plan is on display in the main foyer at the Town Hall.

Town staff report the remaining information has been promised to be received by the end of this week which will allow work to continue on draft a local law for the public’s review and comment. The local law will identify the zoning incentives being requested, the zoning amenities being proposed and the phasing of this site’s development. A public hearing will be scheduled on this proposed rezoning later this year.

18. Fish Solar Farm Project. The Planning Board has not received any additional information on this proposed project since their August 6, 2025, meeting. At that meeting, the Board made findings and a determination not to accept the application, as

submitted to date, for a 23-acre large-scale ground-mounted solar farm to be constructed on a portion of the Fish property, located along the north side of Mt. Payne Road, between Yellow Mills Road and the Farmington/Manchester Town Line. The Applicant's Engineer has stated that he continues to be making further submissions and arranging a meeting with Town Development Staff before again appearing before the Town Planning Board. Once the application has been accepted by the Planning Board then there will be a public hearing with notices provided. At this time there is no further action anticipated.

- 19. Krossber Enterprises, LLC, 5984 State Route 96.** The Planning Board, at their October 15, 2025, meeting will be considering whether to grant Preliminary Site Plan Approval with conditions for the construction of an 11,362 square foot building and related site improvements on two parcels of land located along the north side of State Route 96, west of the Hook Road intersection. The applicant's proposed building elevation drawing is shown below.

- 20. Bridges for Brain Injury, 1111 County Road 8.** The applicant has been granted two (2) area variances, each with conditions involving Preliminary Site Plan Approval by the Planning Board. The site is being proposed to construct a 16,000 square foot Day Programming building and an 11,400 square foot Wildlife Education Building with adjacent outdoor wildlife area and related site improvement.

The Town Planning Board will be meeting on Wednesday, October 15, 2025, to consider granting preliminary site plan approval with conditions for this project.

The Day Programming building elevation is shown below.
